

FREE *DENTAL IMPLANT* CONSULTATION

Missing teeth can erode the ability to eat, smile, laugh and enjoy other daily activities. Dental implants are one of the best options for replacing missing teeth. Finding a dental implant expert who has the verified training, education, and experience specific to dental implants is crucial.

The American Academy of Implant Dentistry (AAID) has designated August as Dental Implant Month to inform the public about the benefits of dental implants to replace missing teeth. Dental implants can improve your ability to confidently eat, smile, laugh, talk, play, and enjoy all regular activities of everyday life. The AAID is home to dental implant experts, who can provide surgical, restorative, or both phases of treatment. This makes the patient's experience more seamless. A dentist's affiliation with the AAID is a sign that he or she is devoted to improving patient lifestyles by replacing missing teeth.

We are proud that Dr. Mark DeVuyst has furthered his education to become an expert in placing and restoring dental implants. Dr. DeVuyst is a fellow of the International Congress of Implantologists, graduate of the Misch Implant Institute, and a member of the American Academy of Implant Dentistry.

If you or someone you know would like to learn more about dental implants or speak to

Dr. DeVuyst one-on-one please schedule your appointment for a

FREE IMPLANT CONSULTATION.
